Let´s drink together

Verse 1

*Well my head weighs a ton, and my hand's on my chin 12*  
*I am drowning my sorrows in whiskey and gin 12*  
*And I wonder what's left that is worth fighting for 12*  
*'Cause there's no one who needs supermen anymore 12*

Chorus

*The Clown left the stage his guitar makes no sound 11*  
*Let´s all drink together - I'll buy the next round 11*  
*Let´s drown all our sorrows in whiskey and beer 11*  
*'Cause nobody needs happy news around here 11*

Verse 2

*All my sorrows feel better with whiskey and beer*  
*'Cause confronting reality fills me with fear*  
*Well no people are dancing outside on the street*  
*So we're leaving alone - there is no one to meet*

Chorus

*The Clown left the stage his guitar makes no sound 11*  
*Let´s all drink together - You buy the next round 11*  
*Let´s drown all our sorrows in whiskey and beer 11*  
*'Cause nobody needs happy news around here 11*

Verse 3

*Well I am just a father a son and a child*  
*But I'm searching for love, I've been waiting a while*  
*At this moment I feel all caught up in my sin*  
*And still drowning my sorrows in whiskey and gin*

Chorus

*The Clown left the stage his guitar makes no sound 11*  
*Let´s all drink together - I'll buy the next round 11*  
*Let´s drown all our sorrow´s in whiskey and beer 11*  
*'Cause nobody needs happy news around here 11*

*As the people pass (Galway) –*

One May afternoon  
I took a stroll through Galway  
Was Feeling so lonely  
So I sat for a while  
I saw people passing  
And no one seemed to care  
I wondered who would pause for a while  
Who would sit down right there

First of all this old  
Beggar lady passed my way  
She looked at me and smiled  
She decided to stay  
All her clothes were in rags  
Her voice was low and sweet  
She told me about Jesus and said  
Some coins were all she'd need

Chorus:

And as I sat there, I wasn't lonely anymore  
Because I could see some poorer souls  
As the people passed, I wasn't lonely anymore  
With the poorer souls

Verse 2

There was a young boy  
And he sat down next to me  
Took hold of my guitar  
Started to play so gently  
I watched the young boy play  
And tears came into my eyes  
I remembered when I was that young  
Memories came into my mind

Around the corner  
A busking girl starts to play  
She had curled red, long hair  
So I decided to stay  
To listen to her voice  
It was so beautiful  
Soon so many other people stopped  
To listen to her too

Chorus

Later a young girl  
She asked me for a song

Said she came from Dublin  
And wanted to go home  
And I cheered her up  
Then she gave me a smile  
Again, I started to play for her  
And she listened awhile

#### Bridge

But after a while of sitting there  
I decided to move on  
Remembered all the stories  
And I played my last song

#### Verse

I saw this old man  
Who dropped some coins to me  
He'd seen me sitting there  
And thought it'd help me  
He heard my lonely sound  
And asked me to strum once more  
To play a last song here in Galway  
On this may afternoon

#### Chorus:

And as I walked away, I wasn't lonely anymore

## Rock me baby

V1

Driving down the coast road  
At Sunset Boulevard  
I was waiting for my Baby  
In her brand new fancy car  
She was driving her way down  
to San Fran-cis-co

Her Sun roof was open  
The wind blew through her hair  
And so I said to my Baby  
"We could go anywhere,  
To Santa Cruz, Haggyns, Del Mar  
Or down to Brisco!"

Baby said, "Let´s see  
the palm trees swaying in the wind  
At South Bay by the sea!  
Will you find a shell for me?"  
Then my baby smiled  
And turned on the Radio

(CH)

Rock me Baby and my love will grow  
I know your Mama used to say "Take it slow"  
But now, Rock me Baby and my love will grow

V2

Next day we drove north  
In my old rusty van.  
At the Big Sur coast road  
We joined a Caravan  
Had my baby next to me  
In her old blue Jeans

Well, she was dancin'  
in the warmth of summer sun  
And she said, "You and I;  
We can have some fun!"  
As she gave me a wink,  
"Baby ya know what I mean!"

Well after all these miles  
Maybe we should take it slow  
My Baby looked at me  
Turned on the radio, she said

"Baby, you can't show me nothing  
that I haven't seen"

(REPEAT CHORUS)

(Coda)  
At Willow Creek  
We found The Wagon Wheel  
As the stars come out  
I showed her how I feel  
And my baby and I  
Laid down by the sea

## Girl From Donegal

### Verse 1

There is a Girl From Donegal  
Who came down to Galway  
She was looking for a job  
Ev-ry single night and day  
She moved into a dirty house  
With five dirty men  
In a room with broken windows  
They ´ll never be fixed again

### Chorus

Poor Ineka don ´t you worry  
Life is not so bad  
Just keep on smiling every day  
And good ´ll come of that  
To a Girl From Donegal  
A Girl From Donegal

### Verse 2

One Day the Girl From Donegal  
She drowned the alley cat  
The dirty men didn ´t know  
They ever act-u-al-ly had  
She dirtied up the big bathroom  
THEY threw her things away  
Sometimes I stop and wonder how  
Much longer she CAN stay

### Chorus

Sad Ineka don ´t you worry  
It ´s no use being sad  
Cook for them and clean the house  
Life is not so bad  
For a Girl From Donegal  
A Girl From Donegal

### Verse 3

I heard the Girl From Donegal  
Worked in the Hotel bar  
I don ´t know how she got the job  
without having a car  
Never looked over her shoulder  
She failed her driving test  
She promised that the next time  
She would do her very best

Chorus

Poor Ineka don't you worry  
Life is not so bad  
Just keep on smiling every day  
And good'll come of that  
To a Girl From Donegal  
A Girl From Donegal

Bridge

Sweet Ineka don't you worry  
You will achieve it all  
Marry a boy, have 7 Kids  
But please, go back to Donegal

Chorus

Poor Ineka don't you worry  
Life is not so bad  
Just keep on smiling every day  
And good'll come of that  
To a Girl From Donegal  
A Girl From Donegal  
A Girl From Donegal

**Come back Home (to the Country)**  
(Martin Gotz/Robert Baitinger)

Down at the station of my hometown  
Where all the trains roll on in  
I held her hand and waved her goodbye  
After a fight I couldn't win

**Pre-Chorus**

Her face was in tears  
As she tried to smile  
For how long will she feel this way  
She saw my heart breaking  
Hoped I could make her stay  
So much I wanted to say

**Chorus**

Come back home to the Country  
Come back home, back to me  
Was I afraid she'd drive me crazy  
If she came back home with me  
Why didn't I hold her back, why didn't I let her know  
That I, didn't want to let her go

**Verse 2**

She sat down close to the window  
As the train slowly pulled out  
I waved her goodbye for the very last time  
I was confused and so in doubt

**Pre-Chorus**

I saw her silent tears  
She tried to hide  
She sat there  
I watched the train leave  
And wished she'd come back  
/I stood there in a trance  
Was this the end of our romance

**Chorus:**

Come back home to the Country  
Come back home where we are free  
But I was afraid she'd drive me crazy  
If she came back home with me  
So I, didn't hold her back, didn't want to let her know  
That I, didn't want to let her go

I started to run, reached out for her little hand  
Her train picked up speed, this was not the way I planned

*An Angel Passed My Way*  
(Martin Gotz/Ray Bertram)

Verse 1:

I had never belonged  
...Never had a home  
My heart was unsettled  
My soul needed to roam  
I gave myself up  
Out on the edge of my last day  
And then an Angel passed my way

Verse 2:

I wasn't looking for new friends  
...Struck out on my own  
I thought it was better  
To be all alone  
I gave myself up  
There was nothing left to say  
And then an Angel passed my way

Chorus:

I don't need a heaven  
And I don't need a hell  
All the things that can go wrong  
I know them so well  
But now I look forward  
I'll survive today  
Because an Angel passed my way

Verse 3:

I've struggled so much  
...All caught up in my sin  
But after today I know that  
I will only win  
No, I will never give up  
In the end I'll be okay  
Because an Angel passed my way  
(Instrumental Fadeout...)  
( "... Yes, I will be an Angel some day..." in the fade)

***Like Romeo***  
(Martin Gotz; additional lyrics by Bernd Harmsen)

I am so tired, but I can't sleep  
finding your old picture your memory makes me weep

I walk out of the door  
wondering where to go  
look at this empty space  
nothing left to live for

**Chorus**

I feel like Romeo when he lay down and cried  
when he thought that Juliet had died  
I feel like Romeo after saying last goodbyes  
ending a love and life of pretence and lies

I am so frightened, I can't find any sleep  
Nothing to hold on to, the pain inside so deep

staring at the floor  
I spot strands of your hair  
I seem to hear your cry  
carried through thin air

**Chorus**

I feel like Romeo when he lay down and cried  
when he thought that Juliet had died  
I feel like Romeo after saying last goodbyes  
ending a love and life of pretence and lies

**Bridge**

laying down again I'm smelling roses in my room  
I feel your closeness lightening my gloom

**Chorus**

I feel like Romeo when he lay down and cried  
when he thought that Juliet had died  
I feel like Romeo after saying last goodbyes  
ending a love and life of pretence and lies

## Rock and Roll Angels

The California Five and The Fabules Four  
Brought me back into the record store  
Where I spent night and day ...  
Between Abbey Road and L.A.

But somehow Brothers you let me down  
Without a king left to wear the crown  
I know the whole world cried  
The day the music died

But the dreams you built  
Will stay alive

Chorus:  
Rock and Roll Angels  
Rock was all that I got  
Rock and Roll Angels  
You made me roll, I wanna rock  
Rock and Roll Angels  
You touched me deep in my soul  
So I keep listening, to Rock´n´Roll

Some moments are lost but some I recall  
When I think about you all  
Buddy paved the way  
With that will be the day

A Pretty Woman set me free  
While Del gave Runaway to me  
Johnny Rose up so fast  
Now you are lost in the past

But the dreams you built  
Will stay alive

Rock and Roll Angels  
Rock was all that we got  
Rock and Roll Angels  
You made me roll, I wanna rock  
Rock and Roll Angels  
You touched me deep in my soul  
So I keep listening, to Rock´n´Roll

Bridge:

After all those years, so many of you are gone  
But I am sure in heaven, Rock ´n´Roll is playing on

(Chorus)

*"Years go by"*

Verse 1

Every time I ´m in trouble  
I look for certain ways  
To take away my sorrow  
Raise me from the haze

Every time I lose my way  
There is someone I can see  
As the years keep passing  
That's always there for me

Pre-Chorus

When I am lost  
In the darkness all alone  
You always find a way to  
Make me feel at home

Chorus

Years go by  
Time and again  
And after all  
You´re still my friend  
Sometimes we laugh  
Sometimes we cry  
As we watch  
The years go by

Years go by (bababa...bababa...)

Verse 2

The years are moving on  
And time is passing by  
Always faster and faster  
But I still don´t know why

Down all the years it's like  
Home when I see you  
You've a special place for me  
That's always safe and true

Pre-Chorus (same)  
Chorus (same)

Bridge  
As long as our ship is sailing  
In the open sky  
I won't give up  
I'll give it another try

chorus

(Alternative Bridge)  
When I can't find my way  
Out of the night  
You are there  
Like a guiding light

***“Another summer without you”***

Verse 1

Sometimes when I feel blue  
I spread my wings and fly  
When I'm high above  
I start to wonder why

Pre-Chorus

Where have the voices gone  
The silence makes me cry  
Where have the people gone  
Are they away for a while

Chorus

I don't know why I think of you  
I don't know why I yearn for you  
Why I cannot keep my thoughts  
Away from you

We had our share of good times  
We had our share of bad times  
I never wanted it  
But it's true  
Another Summer without you

Verse 2

Sometimes when I lie alone  
Some old pictures cross my mind  
I don't stand up for you  
You're not the loving kind

Pre-Chorus

All our dreames are gone  
The darkness makes me cry  
All the voices are gone  
We will never fly

Chorus

I don't know why I think of you  
I don't know why I yearn for you  
Why I can't keep my thoughts  
Away from you

We had our share of good times  
We had our share of bad times  
I never wanted it  
But it's true  
Another Summer without you

Bridge

Dreams are gone  
Gone with the wind

Chorus (repeat)

Sometimes when I'm lost  
You tell me how  
I can spread my wings  
And make you proud  
But by this time I feel so blue  
Another summer without you

## ***The Truth***

### Verse 1

In our darkest moments  
Where no guiding light shines  
Man is always looking  
For the truth

The world full of silence  
Our prayers left unheard  
And in all our sounds  
Is no harmony

### Chorus

blood runs through my veins  
blood runs out from my hearts  
And The only one who listens  
Is the leastworth of the god's

### Verse 2

Hear a voice from a distance  
The silcents gone away  
Man is still dreaming  
Of the truth

Light rises from the shadows  
is healing us from the pain  
And I can hear his words  
In a children song

### Chorus

blood runs out from your hands  
blood runs out from your hearts  
The only one who listens  
To the lesser ones is god

***Will you remember me?***

In my homeland far beyond the moon  
where the clouds go rolling by  
My father and mother left for good  
Without a word of goodbye

One day I know the time will come  
When I shall rest in peace  
When I shall rest in peace  
Those who lost me are out beating drums  
Only the wind is whispering my name  
The wind is whispering my name

But who Who Will Remember Me?  
Who Will Remember Me?

When all my old friends go on to grass  
Their memories fade away  
I'll walk the road to cross the river  
To open the old iron gate

I'll sit among the silent stones  
Where I shall rest in peace  
Where I shall rest in peace  
I'll be content my work here is done  
Only the wind is whispering my name  
The wind is whispering my name

But who Who Will Remember Me?  
Who Will Remember Me?

"May old acquaintants be forgot  
And never brought to mind" (Robert Burns)

But who Who Will Remember Me?  
Who Will Remember Me?
